

How to remove Watermark in Wondershare Filmora9 easily!! for free...

Easy Steps :

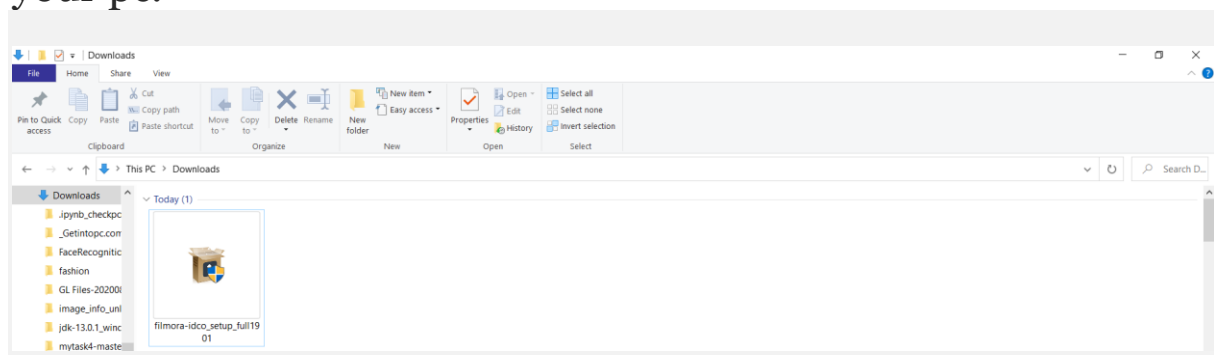

Step 1: Firstly open your browser(eg. chrome) and search it on google Wondershare filmora9.

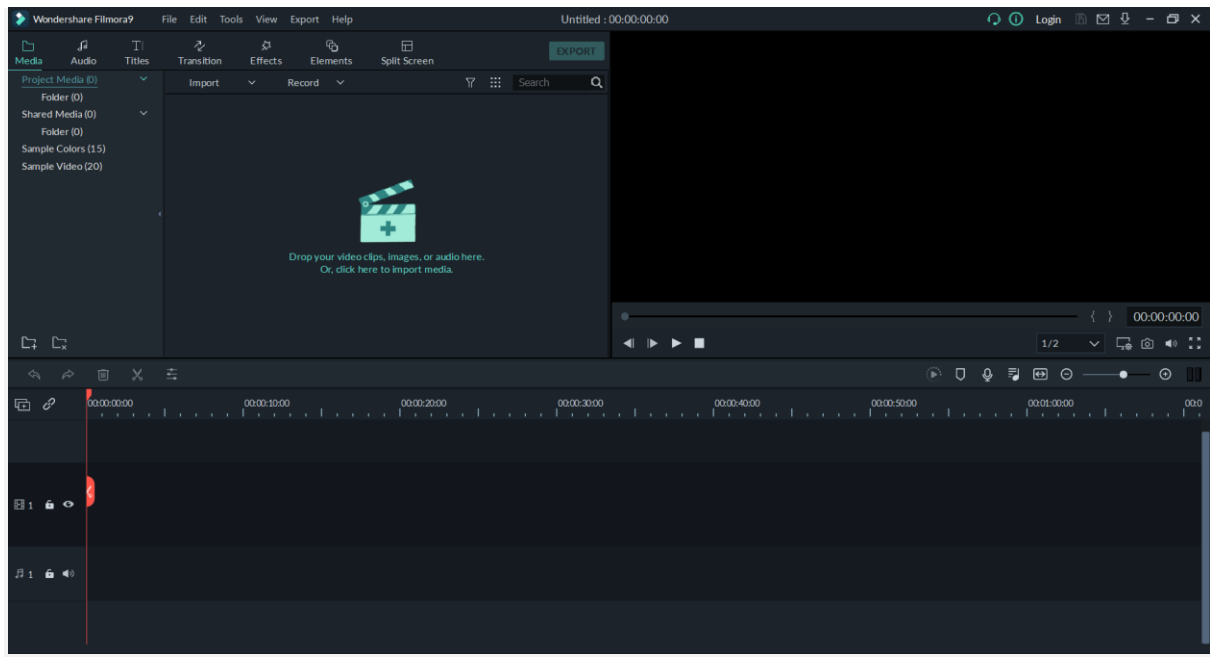

just click on free download it will download easily!!!.

Step2: After download the Filmora9 , then simply install in your pc.

Simply Double click it the Filmora9 will install easily.

Step3:After installing the Filmora9, then start app and then close it.

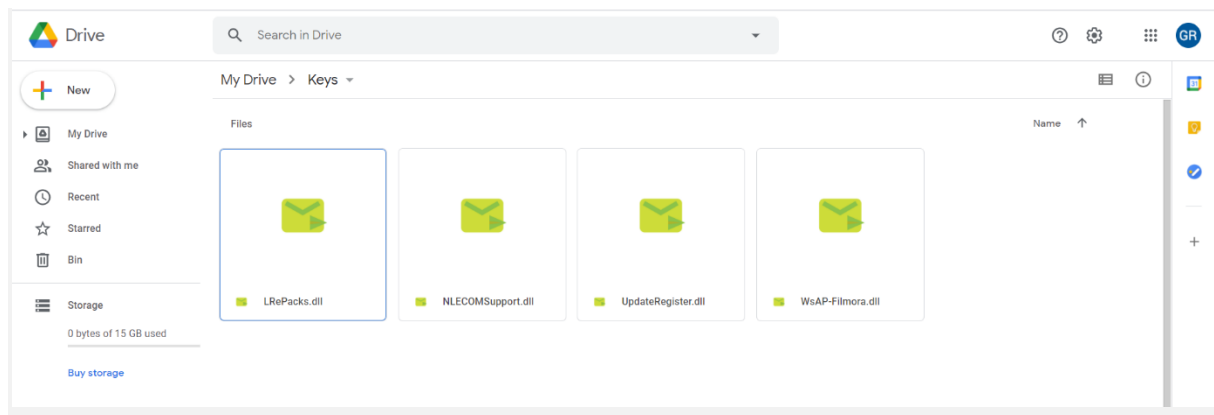

finally the filmora9 is open then just close it.

Step4: After doing above 3 step successfully, then right click on the filmora9 icon, then click on ****Open file location****.

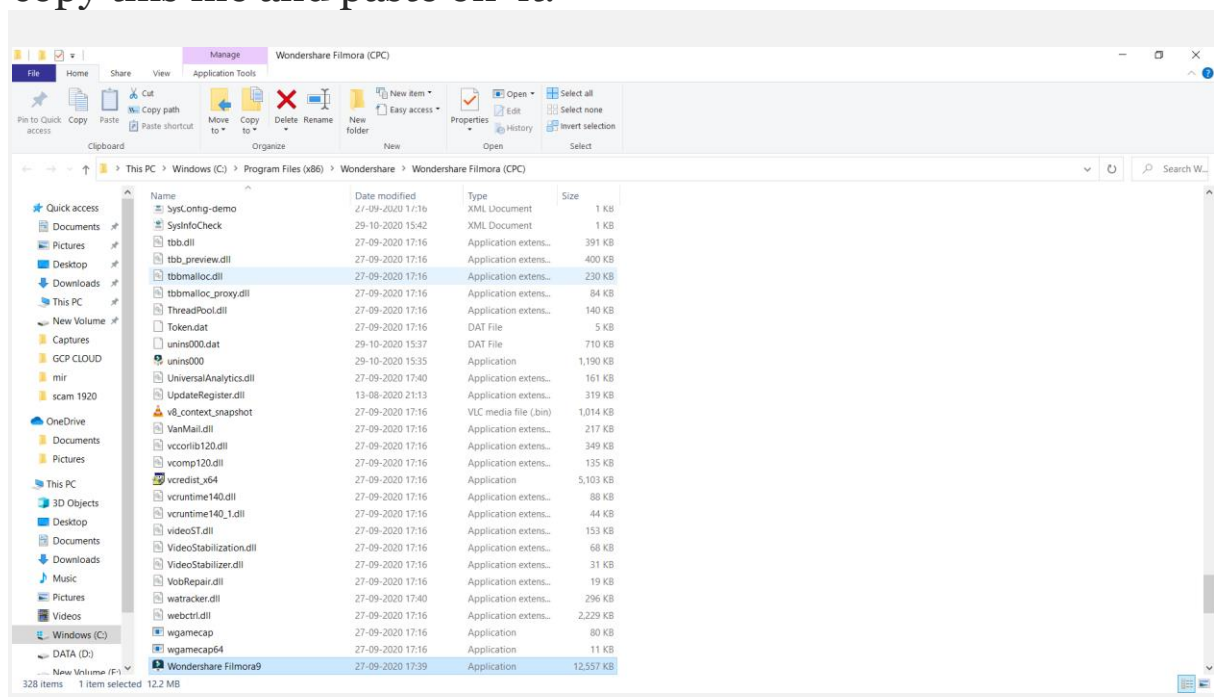

Then i am giving a drive link where 4 file in the keys folder you just have to download the 4 file and then copy of all the 4 file and paste on it.

Google Drive Link

<https://drive.google.com/drive/folders/1bcGIFC-AOtAhqSBFXlszVRJkNDX2z8sF?usp=sharing>

copy this file and paste on it.

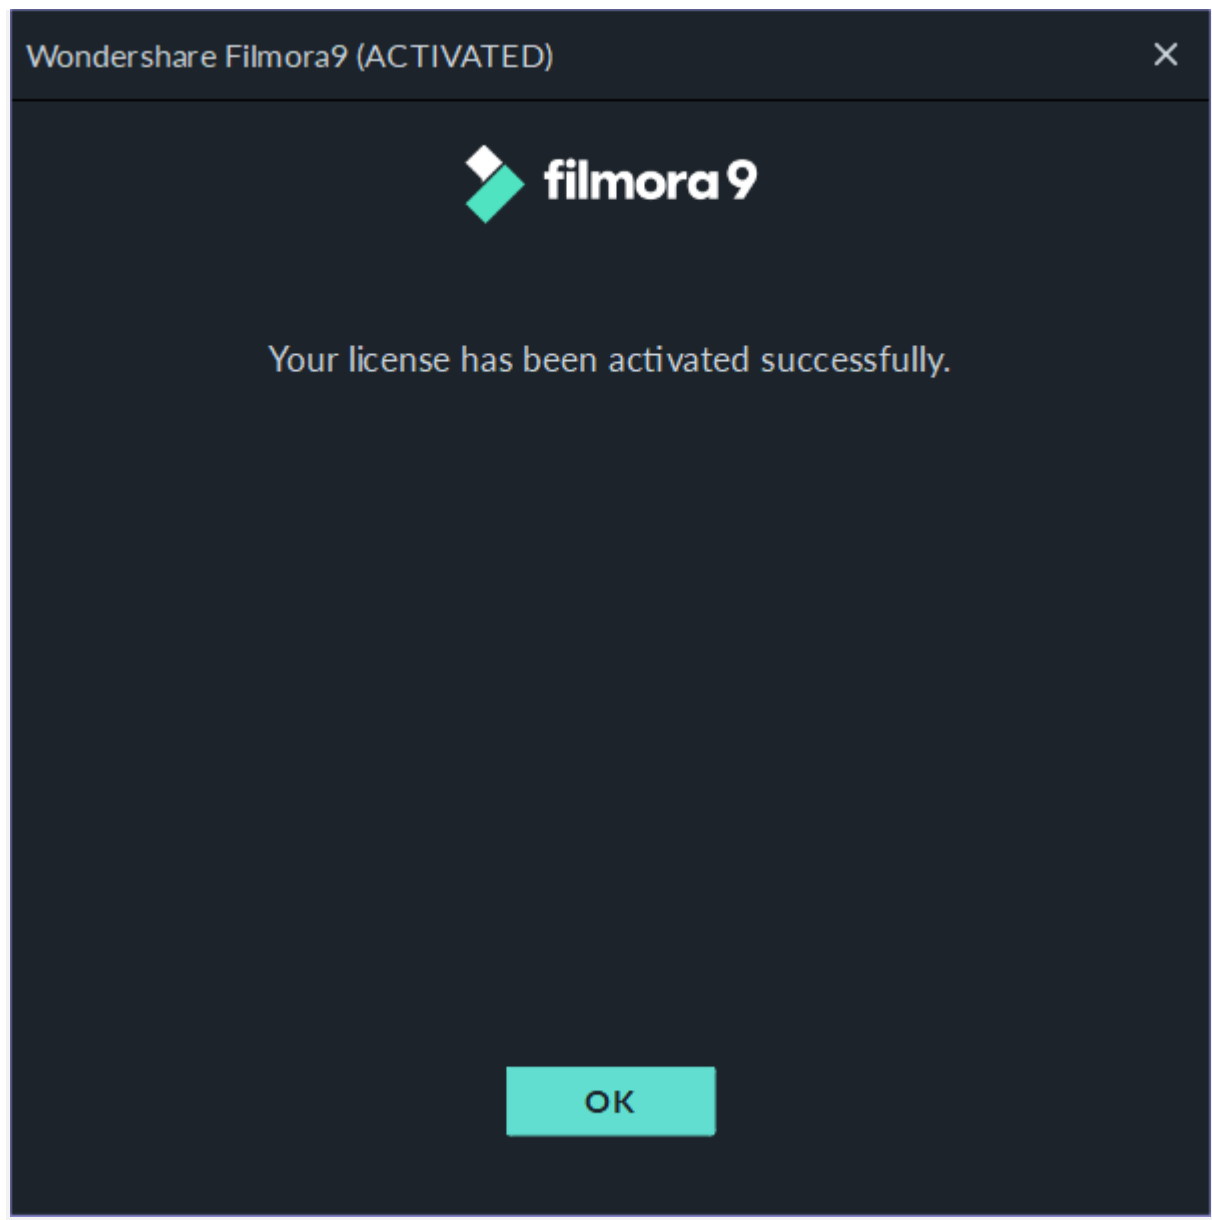

like in this image pasted those 4 file.

Step5: After completing all the step open filmora9.

Open the Filmora9 App and then click on the ****Help option****

then, click on the ****Active Filmora9****

At last the Wondershare Filmora9 is Activated...

And You can excess everything and No Watermark will come!!

Thank you

For your time!!
